OF THE INSTITUTE OF MOLECULAR BIOLOGY & BIOTECHNOLOGIES

PUBLISHER: INSTITUTE OF MOLECULAR BIOLOGY

Volume X, No 1

2026

CONTENT

The human large-conductance, calcium-activated potassium channel covers cell resistance to oxidative damage

Fidan Gudratova, Nicoletta Savalli, Enrique Balderas, Sevda Mahmudova, Aysel Aliyeva, Gunay Aliyeva, Taleh Yusifov 3

Synthesis and characterization of magnetic Fe₃O₄/chitosan/ALA nanocomposite

Mahmut Yıldıztekin, Sultan Köşkeroğlu, Mehmet Fırat Baran, Atilla Levent Tuna 12

Association of salt-tolerant bacteria to support the growth of pasture grasses on saline soils

Irina Smirnova, Amankeldi Sadanov, Gul Baimakhanova, Marat Aldabergenov, Yaira Rakhmetova 20

Carbon footprint-yield relationships in sorghum as influenced by agronomic input intensity

Zain ul Sajjad 28

The effects of traditionally produced olive oil “Kara Yağ” and extra virgin olive oil from Northern Cyprus on hct-116 colon cancer cells

Özge Özden, H.Seda Vatansever, Şebnem Güler, Salih Gücel, Cenk Serhan Özverel, Burak Durmaz, Meryem Demir, Mehmet Karagözlü, Tamer Şanlıdağ 41

Biochemical components of *Juniperus communis* L. under the conditions of Northern Kazakhstan and the study of essential oils of some *Juniperus* L. species from the flora of Azerbaijan

Gulnar Aidarkhanova, Arzu Çığ, Elman Iskender, Minara Hasanova, Zümrüd Mamedova, Gülü Aliyeva 54

A rationally designed Wuhan-sequence-based COVID-19 vaccine that maintained effectiveness against diverse SARS-CoV-2 variants, including Omicron: What was the key to success?

Tarlan Mamedov 62

Molecular docking analysis of glycyrrhizin interactions with ACE2 and tyrosinase: implications for inflammatory and pigmentation-associated pathways	
Leyla Galandarli, Ralphreed Gasanov, Gulnara Akverdieva	72
Expression analysis of HSP17.3, WRKY14, and WRKY36 genes in bread wheat genotypes under heat stress	
Saida Zulfugarova, Samira Rustamova, Irada Huseynova	87
Utilization of eucalyptus (<i>Eucalyptus</i> spp.) plant in value-added cosmetic, health and food products: Biological activities, industrial potential and economic importance	
Musa Karadağ, Kadir Sinan Aslan, Zübeyir Güneş, Halil İbrahim Ünsal, Necmettin Aktepe, Beşir Dağ	94
